Summary

Software Developer with 1.5+ year of experience building full-stack mobile and web applications using React Native, Python, and Frappe/ERPNext. Skilled in REST API development, ERPNext/Frappe customization, and AI/ML-powered features, with hands-on experience in production deployment – SSH-based server migration & updates, DNS configuration, and Git workflows (pull, merge, version control). Delivered end-to-end apps to the Google Play Store and Apple App Store via Expo (EAS).

Skills

AI/ML & Frameworks: AI, ML, DL, NumPy, Pandas, Scikit-learn, TensorFlow, MATLAB, EDA, OpenCV, Hugging Face, Frappe, MCP
Programming Languages: Python, Java, C
Web Development & App Development: HTML, CSS, JavaScript, React.js, React Native, Flask
Database Knowledge: MySQL, Firebase, Oracle SQL, MariaDB
Deployment & Hosting: cPanel , Vercel, Netlify, DNS Configuration, SSH.
Other Technical Skills: Gen AI, Git/GitHub, REST API, OOPs, Networking Basics, SDLC, Agile/Scrum, Linux, Postman, AWS Basics, OS

Work Experience

Software Developer May 2025 – Present
Dexciss Technology Pvt Ltd *Pune, India*

- Built and shipped a Field CRM app (React Native, iOS/Android) with Python REST APIs and ERPNext/Frappe backend, including AI-generated in-app analytics.
- Improved UX with skeleton/lazy loading, haptic feedback, and toast notifications; managed full release lifecycle via Expo EAS to Google Play & App Store.
- Integrated in-app subscriptions (IAP), maps, and voice-based attendance tracking; developed and published a second app (milk delivery) with similar architecture.
- Configured Frappe mail/DNS and deployed production bench via SSH; customized ERPNext (pricing rules, print formats, HRMS workflows) and built a cash management module.

Python Full Stack Developer Trainee July 2024 – March 2025
PySpiders, Basavanagudi *Bangalore, India*

- Built **TrueScholar**, an ed-tech/scholarship platform, using React.js frontend and Python backend with Oracle SQL database.
- Developed **VisaHub**, a visa application tracking system, with a React.js frontend and Python backend handling application status workflows.
- Completed intensive full-stack training (Python, React.js, JavaScript, Oracle SQL) applying core concepts through production-style projects.

Projects

Milk Delivery App – Full-Stack Subscription & Payments Platform May 2026 – Ongoing

- **Tech Stack:** React Native, Expo, Frappe (Python), Razorpay, Google Maps, REST API, Biometric Auth
- Built a cross-platform dairy subscription app (Android/iOS/Web) on a Frappe REST backend.
- Built a **secure token-based auth system** with session-expiry handling and biometric re-login.
- Engineered an **end-to-end Razorpay payment pipeline** with UPI Auto-Pay and wallet-based checkout.
- Built full subscription lifecycle management (create/pause/resume) with dynamic packing types and delivery slot selection.

Field CRM Mobile App (Android/iOS) Published on Google Play & App Store

- **Tech Stack:** React Native, Expo, Python, ERPNext, Frappe, MariaDB, REST API, MCP
- Built a field sales CRM (React Native/Expo + Frappe/ERPNext), used by **100+ field reps** across auth, dashboard, and order modules.

- Built an AI-driven analytics dashboard delivering real-time visit insights and customer purchase trends.
- Architected a modular API layer (**20+ services**) with global state management for scalability.
- Managed release lifecycle via Expo EAS to Google Play & App Store, including in-app subscriptions (IAP).

ERPNext AI Assistant – Generative AI-Powered ERP Chatbot Nov 2025 – Dec 2025

- **Tech Stack:** Python, Frappe Framework, ERPNext API, OpenAI GPT-4o, MCP, Whisper API, DNS/Server Deployment
- Built a GPT-4o + MCP-powered voice/text assistant for ERPNext, reducing manual navigation for users.
- Implemented Whisper API voice-to-text for hands-free, accessible interaction.
- Independently deployed to production – provisioned Contabo VPS and configured DNS for secure public access.

Education

D. Y. Patil College of Engineering Kolhapur, India

Bachelor of Technology (B.Tech) in Computer Science Engineering (Data Science), – 78% *June 2020 - May 2024*
